

Scientific Sales and Deaton Engineering Sign Co-Marketing Agreement

DEI partners with Scientific Sales to broaden its custom machine marketing efforts

Date of Publication: 2/02/2006

Austin, Texas -- February 02, 2007 - Deaton Engineering, a full service mechanical, electrical, and control software engineering firm, announced it has joined forces with Scientific Sales as a co-marketing partner. The affiliation will allow DEI to expand its custom machine design and integration business by utilizing the strength of Scientific Sales' marketing capabilities. Deaton Engineering is a leader in the custom equipment and integration field with clients in many industries including pharmaceutical, medical device, industrial manufacturing, semi-conductor, and general manufacturing. Custom machines developed by DEI for many applications including manufacturing automation, test and measurement, facility systems, entertainment and heavy industry. Deaton Engineering's custom machine and integration services incorporate the highest standards in quality to ensure consistency, efficiency and minimal down time.
