

Rack-Mount Grounding Kit For 19" Rack-Mount Transit Cases

Properly ground your 19" rack-mount transit cases with a Rack-Mount Grounding Kit from DEI.

- 1/4" copper Ground Bar includes two 1/4-20 studs for connecting straps and ten #10-32 holes for connecting wires.
- Bar may be mounted to vertical rails in a rack's U-space, or to a horizontal rail, leaving U-space for other components.
- Rod Clamp Assy connects the Bar to a 3/4" ground rod.
- C-Clamp Assy connects the Bar to a 3/4" ground plate.
- Spring Clamp Assy connects the Bar to a 1" component.
- Case Strap Assy connects Bars in adjacent cases.
- All required fasteners included.
- Ground wires and other ground straps available.

Providing reliable solutions for rack-mount integration challenges.

Available Kits

- *Deluxe Mother Kit (bar, all 3 clamps)*
- *Basic Mother Kit (bar, rod clamp)*
- *Daughter Kit (bar, case strap)*
- *Other combinations available*
