

Signal Entry Panel For 19" Rack-Mount Transit Cases

Simplify field-installation time for your 19" rack-mount transit cases with a Signal Entry Panel from DEI.

- Panel easily mounts in a 19" rack-mount case.
- Panel provides a single location for all required signal connections, eliminating hard-to-reach connections.
- Panel includes feed-thru panel-mount connectors for all required signal connections.
- Silk-screened labeling clearly identifies all connections.
- Each panel is customized to meet your unique signaling needs.

Providing reliable solutions for rack-mount integration challenges.

Features

- *Single location for all signal connections*
- *Easy front & rear cable connections*
- *Custom silk-screened labeling*
