

Rack-Mount Support Kit For 19" Rack-Mount Transit Cases

Add mechanical support for your critical rack-mount components with the Rack-Mount Support Kit from DEI.

- 16-gauge stainless steel Support Tray with stiffening channel provides rear support for the lowest rack-mounted component.
- Adjustable Support Bracket provides bracing for the top most rack-mounted component. 1U, 2U & 3U standard heights. Other heights available.
- 1/16"-thick Rubber Cushion provides cushioning between Support Bracket and rack-mounted component.
- High-strength nylon Adjustable Strap secures all Support Kit and rack-mounted components.
- Nut Driver allows for easy adjustments to Support Bracket and Adjustable Strap.

Providing reliable solutions for rack-mount integration challenges.

Kit Includes
